

# Steps: Battery Rock to Rock Creek

The beginning of the River to River Trail. My steps are quick and light in anticipation of what lies ahead. I fill a small bottle of water from the Ohio River to empty into the Mississippi River, a trail tradition. The trail takes me from a Civil War battle site overlooking the Ohio River to Rock Creek, home of Anna Bixby, who, with the help of a Shawnee woman, known as Auntie Shawnee, found the cause of the dreaded milk sickness that took many lives, including that of Nancy Hanks Lincoln, the mother of Abraham Lincoln.
